

## **EASY TO INTEGRATE. EVEN EASIER TO USE.**

Zebra bar code printers and antimicrobial wristbands make accurate patient ID simple. Our printers integrate easily into hospital information systems and are authorized by the 11 leading ADT system providers to work seamlessly with their software. Zebra printers and wristbands are also extremely easy to use. And, because Zebra's thermal print solutions produce smudge-proof bar codes that remain easy to scan throughout a patient's stay, we make safety simpler, too.

For easier patient ID, call 800-356-6126 or visit [www.digi-trax.com](http://www.digi-trax.com)
