The crosstrax™ system takes data from your LIS and converts it to a label format that is customized to your requirements. This new label is printed to a desktop bar code printer simply and efficiently. The end result is a label that is easier to read and more effective in your operation.

For more information, contact Digi-Trax® at 800-356-6126 or at info@digi-trax.com

- Improve patient safety with a easier to read, more organized design format
- Eliminate keystroke errors by using 2D bar codes that can be scanned in directly to your HIS/LIS system
- Reduce the risk of mislabeling the unit for transfusion
- Less paperwork needed. Reduce an 8.5” x 11” paper size to a 4 x 4 label/tag format. No need for multipart forms any more.
- Avoid using a dot matrix printer. CrossTrax™ can accommodate a wide range of Digi-Trax® printers and convert the information to a label/tag format for a desktop barcode printer.
- Reduce your cost of printing tags
