Labels and Supplies for **sunquest. Solutions**

Digi-Trax® and Sunquest have successfully partnered for over 30 years to fulfill the needs of our mutual healthcare customers. We are dedicated to providing hardware and integrated with Sunquest systems.

We collaborate on the following areas:

Sunquest Laboratory™
Sunquest Collection Manager™
Sunquest Collect™
Sunquest Transfusion Manager™
Sunquest CoPath Plus™
Sunquest Laboratory™ Blood Bank and Microbiology

As a one-source stop, Digi-Trax provides not only the hardware, support and technical service to end users, but also offers a comprehensive line of labels, printer ribbons and other supplies.

Our extensive product line includes ISBT 128 bar code compliant labels for the blood transfusion areas of the hospital. We offer a variety of labels for your microscope slide needs, including micro workcards, as well as labels and ribbons for the Collection Manager system. We’ve even recently added a standalone software that can produce high quality, easy-to-read component transfusion labels.

Digi-Trax® also has the flexibility to produce custom labels. If you don’t see what you’re looking for in this brochure, please contact us for a quotation. **We’re happy to work with you.**

In your microbiology or pathology department, micro workcard labels must be durable and reliable. Digi-Trax produces our labels manufactured from material that is not affected by heat, light or chemicals such as xylene. Whether you’re using the slide labels under the microscope or in an incubator, you can feel confident that the label will remain in place and the printed information will be clear and legible.

- Improve patient safety with a easier to read, more organized design format
- Eliminate keystroke errors by using 2D bar codes that can be scanned in directly to your HIS/LIS system
- Reduce the risk of mislabeling the unit for transfusion
- Less paperwork needed. Reduce an 8.5" x 11" paper size to a 4 x 4 label/tag format.  No need for multipart forms any more.
- Avoid using a dot matrix printer. CrossTrax™ can accommodate a wide range of existing printers and convert the information to a label/tag format for a desktop barcode printer.
- Reduce your cost of printing tags
