

Zika testing label

As the Zika virus continues to persist and concern those involved in the blood and tissue collection community, Digi-Trax® has met the needs of facilities with different labeling requirements. Need a custom format? We can provide that, too.

All labels are manufactured using blood bank synthetic label material.

The label adhesive meets FDA CFR 21, Section 175.105 requirements for direct bag contact.

2,000 labels per roll
