

# Soft Infant Z-Band Wristband Solutions

Gentle enough for a newborn's delicate skin

Wristbanding infants is a sensitive issue. While hospitals go to great lengths to properly identify infants, clinicians are also concerned with the comfort and durability of the bands. Zebra kept these challenges in mind when creating a complete line of wristbands for infants.

Barcoded wristbands are the foundation for positive patient identification and the prevention of serious medical errors. Zebra® thermal printers produce crisp, clear print quality on all wristbands, so barcodes scan quickly and reliably. Zebra offers several soft, comfortable infant wristbands to meet most hospital's needs.

## Zebra's ZD510-HC Patient I.D. Solution

The reliable ZD510-HC direct thermal printer combined with easy-to-load cartridges of Z-Band wristbands in adult, pediatric or infant sizes allow patient I.D. protocols to be easily implemented. Pop the wristband cartridge into the ZD510-HC printer and print durable, individual wristbands on demand. The ZD510-HC printer detects the wristband size and automatically calibrates its settings for optimal print quality.

## Zebra's Z-Band Direct Soft Infant wristbands feature:

- Soft nylon material that is perfect for delicate skin
- Adjustable design that fits the smallest patients
- Flat surface print area to ensure ease of scanning
- 2" x 0.75" / 51 mm x 19 mm print area and a 0.4375" x 5.5" / 11 mm x 140 mm band
- Patented antimicrobial coating that protects the wristband
- Pressure sensitive, adhesive tab closure for quick and easy securement

## Zebra Fusion ID Tags

Zebra's Z-Band Fusion ID Tags feature a self-laminating design that protects the image, making them perfect for use in the NICU where the average infant stay exceeds 14 days. They can be used in conjunction with the ComfyCuff® foam wristband, SwaddleBand and Vinyl Infant wristbands.

## Soft Infant Wristband Accessories

Zebra's ComfyCuff family of wristband accessories when paired with Z-Band Direct Soft Infant wristbands, offers clinicians a way to identify infants without having to unwrap them.

ComfyCuff	ComfyCuff Security Seal
 <p>This soft, foam cuff features an adjustable Velcro® closure ensuring infant comfort. It can be used in conjunction with Z-Band Fusion ID tags.</p> <p>5" x 1.25" / 127 mm x 32 mm</p> <p>Latex Free</p> <p>Part Number: LB2-BABY-P</p>	 <p>Label securely sticks to the ComfyCuff and tears away to indicate tampering.</p> <p>2.875" x 0.4375" / 73 mm x 11 mm</p> <p>Latex-free</p> <p>Part Number: LB2-BABY-CCS</p>
ComfyCuff Infant Swaddle Band	Vinyl Infant Wristbands
 <p>Tyvek® band creates an extension between the ComfyCuff and Z-Band Direct Soft Infant Wristband or Z-Band Fusion ID Tag to make identification of swaddled babies quick and easy.</p> <p>9" / 229 mm long</p> <p>Latex Free</p> <p>Part Number: LB2-BABY-SWB9</p>	 <p>Clip-Closure</p>  <p>Self-Locking</p> <p>These latex-free, soft, flexible vinyl wristbands are for use with Z-Band Fusion infant ID tags. The narrow width allows some models of "Abduction Prevention Systems" to be attached. They are available in clip or self-locking closure. The self-locking closure wristband enables size adjustment with a gentle tug as the infant loses mass around the wrists and ankles within the first 24 hours of birth.</p> <p>Clip-Closure Part Number: PS-BABY;</p> <p>Self-Locking Closure Part Number: PS- INFANT-ADJ</p>
